

10 July 45

TO : Capt Chan
 FROM : Lt Davis
 SUBJECT : Reevaluation of Translation Control Backlog Docs

1. In conformity with Maj Wright's recommendation in this morning's conference re our backlog of translated but unchecked docs I am submitting the following docs to you for reevaluation. Please ascertain from all possible interested agencies whether the info contained in these reports is still of any value. If so, whether we can prepare advance copies of these reports, send them to the interested agency and then reclassify the doc without any further publication by PACMIRS. It is conceivable that certain of these docs have become more valuable since they were translated and thus should be reclassified to "A" and published by us for general dissemination.

2. List of Docs

- DB-39 Extract translation on "AT Combat"- C priority
- 1050 Tactical lessons learned from surprise enemy raids in OKA Sector - C priority
- 1268 Complete transl. of hygiene for air crews (See Table of Contents p.2) - C priority
- DR-2 Extract transl of diagrams showing theoretical signal nets for island defense (This ~~xxxx~~ probably should be referred to our new Sig Liaison Off first)- B priority
- 1054 Complete trans of Tactical lessons learned in Solomon Is campaign - B priority
- 1184 Extract trans of regulations on mountain maneuvers, difficulties and methods of dealing with them- B priority
- 1555 Extract trans of civil defense methods in combatting airborne troops in Burma- B priority
- 1760 Extract trans on statistical charts of kilometers travelled and fuel consumed by vehicles * B priority
- 1755 Partial transl on Jap defense against sabotage in China(See Table of Contents) B priority

3. Please return these docs and their translations to me with recommendations after you've finished with them.

Robert Du Davis
