Copy 2 of 5

17 December 1957

Dear Don,

Please proceed with the furnishing of the following items:

Nine (9) each - Light-weight coveralls with high-visibility panels. Part No. S-633L.

Nine (9) each - Intermediate-weight coveralls with high-visibility panels. Part No. S62L.

STATOTHR

One of each type of the above coveralls is to be furnished to the following FOG personnel: 60, 65, 66, 70, 71, 80, 135, 142 and 143. It is understood that your subcontractor, David Clark Co., already has made suits of each type for [redacted] people and that the above requirements were discussed with David Clark by FOG representatives on 22 and 23 October 1957. Upon completion, each suit should be properly identified by code number and shipped to Project "Dragon Lady", Warner Robins AMA, Robins A.F.B., Ga. Mark for: Warehouse 17, Storeroom "B".

It is also requested that you "Mock-up" one seat kit using a standard AF container which is being sent to you by [redacted] people. This is to be made for use with FOG ejection seat modification. The configuration is to be as discussed by Russ and you on 16 October. It should include provisions for interchangeable left or right suit attachment and an emergency system activation by a handle on the forward edge of the kit. The emergency activation handle cannot be in the center of the kit as this will interfere with the ejection handle. The kit should be made with a view to exchanging components from the old kits with a minimum new procurement.

STATOTHR

It is also requested that you inspect and repair as necessary the seat kit used by [redacted] and at the same time modify it to include an emergency oxygen activation on the front of the kit.

25X1A

When this work is complete, Russ and Sid will visit Buffalo to inspect both kits.

DOCUMENT NO. 4  
NO CHANGE IN CLASS.   
 DECLASSIFIED  
CLASS. CHANGED TO: TS S C 25/1

~~SECRET~~

Costs for performance of the foregoing should be kept separate from Contract HF-1230 in contemplation of a new contract. Your costs proposals for this work and your proposal for the 20 bailout bottles and 20 tie-down straps referred to in Sid's memo of 16 September 1957 should be furnished me at the earliest practicable date.

Regards,

Dan
