SCOPE OF WORK

Computer Control, during the period of October 1, 1955 to April 1, 1956 and under the technical supervision of Kodak, shall use its best efforts to supply the necessary personnel, facilities, and materials and do all other things necessary for or incident to the performance of the work as set forth below. Computer Control agrees to use its best efforts to complete performance of this contract within the estimated cost and within the time specified, but Kodak and Computer Control agree that performance within such estimated cost and within such time cannot be guaranteed.

In this connection Computer Control shall not make expenditures or commitments over and above the amount stated herein nor beyond April 1, 1956, whichever occurs first, without prior written approval of Kodak, and Kodak shall not be obligated to pay for such expenditures or commitments. Computer Control shall not be obligated to work beyond the amount or time stated herein without negotiation of a mutually satisfactory agreement providing therefor.

It is understood that this work shall be done under a modified CPFF type contract.

The work to be undertaken shall consist of furnishing all services, facilities, and materials required to design and construct the electronic portion of Minicard Selector No. 2.

STATINT

REIMBURSEMENT

The reimbursement due Computer Control for its direct costs incurred in the performance of the services required by this contract shall be computed in accordance with the principles set forth in Part 2 of Section XV of the Armed Services Procurement Regulation, which Section is hereby incorporated in and made a part hereof by reference. Such direct costs shall not include the Computer Control catalog components referred to as "Direct Charges" in the Computer Control cost analysis attached to Computer Control quotation dated November 23, 1955.

In lieu of direct reimbursement for indirect costs for work performed at Computer Control, Computer Control shall be reimbursed for Engineering Expense and G&A Expense on the basis of actual cost, subject to standard Government audit in the manner normally employed by the Navy Cost Supervisory Service, upon the completion of this order. For purposes of progress billings, the following rates shall be used provisionally until negotiation of new rates shall have been effected, at which time payment under such provisional rates shall be adjusted accordingly:

Computer Control represents that the foregoing rates do not include any element of profit.

In addition to the normal Manufacturing Costs (materials, labor, engineering overhead), General and Administrative Cost, and the Fixed Fee, there has also been included in the total contract consideration, Forty-nine Thousand, Six Hundred Ninety dollars (\$49,690.00) representing Computer Control's prices for items normally produced by Computer Control which are used in the performance of this contract. It is understood that such items normally produced and sold by Computer Control are chargeable to this contract at net wholesale prices normally charged by Computer Control pursuant to its Catalog or otherwise for such items, but not subject to the application of G&A and Fee. These items which are included in Computer Control cost analysis, attached to quotation dated November 23, 1955 and referred to as "Direct Charges," are as follows:

20	3C Blocs	@ \$1980.00
10	Acoustic Memory	@ 600.00
6	30 Unit Delay Panel	@ 465.00
5	15 Unit Delay Panel	@ 260.00

Kodak will reimburse Computer Control for such components at the fixed prices listed above upon certification by Computer Control and/or inspection satisfactory to Kodak that the above components are applied or made a part of the Minicard Selector constructed under this order.

PAYMENT

Kodak will reimburse Computer Control for expenditures made in accordance with the above provisions and will pay Computer Control the agreed compensation and fixed amounts for costs incurred in accordance with the above provisions, upon certification and delivery to Kodak of copies of the original payrolls for labor, receipted invoices for materials, equipment etc., or other evidence satisfactory to Kodak. Reimbursement and payment will be made as promptly as possible, generally monthly, but may be made at more frequent intervals if the conditions so warrant and Computer Control so requests.

Eighty-five percent (85%) of the fixed fee set forth herein shall be paid as it accrues, in monthly installments based upon percentage of completion of the work as verified by Kodak.

Upon completion of the work and its acceptance by Kodak, Kodak shall pay to Computer Control the unpaid balance of the cost, if any, of the work determined as above, and of the fixed fee. Kodak shall accept the completed work with reasonable promptness.

DELIVERY

The work shall be completed and the units shall be delivered by April 1, 1956.

Computer Control understands that the work hereunder is subject to the conditions contained in the following attachments which are incorporated herein.

- Attachment No. 1 - EK-1955 - Government Contract Clauses.
- Attachment No. 2 - CW-158-I - License Under Copyrightable Material.
- Attachment No. 3 - CW-158-E - Notice and Assistance Regarding Patent Infringement.
- Attachment No. 4 - CW-158-B - Authorization and Consent.

The following Armed Services Procurement Regulation is incorporated herein by reference:

Government, or any other person, firm or corporation shall be given access to your records, except as directed by him.

SUBCONTRACTS

Computer Control shall not, without the prior written consent of Kodak, place any subcontract which is on a cost-plus-fixed-fee basis, or is on a fixed-price basis exceeding either \$25,000 or five percent of the total estimated cost of the contract, or is on a time-and-material or labor-hour basis or involves research and development work. Computer Control further agrees that no subcontract placed under this contract shall provide for payment on a cost-plus-percent-of-cost basis.

PROPERTY RIGHTS

All equipment, models, designs, layouts, drawings, sketches, reports, data and similar material prepared or produced hereunder shall be the property of and delivered to Kodak.

Kodak shall have the right without further compensation to Computer Control, to make, use, lease, and sell and to reproduce, use or publish any such equipment, models, designs, layouts, drawings, sketches, reports, data and similar material prepared or produced hereunder and Computer Control shall do all things necessary to vest and maintain in Kodak the aforementioned right.

PATENTS

Nothing in this agreement, or any work specified hereunder or in any purchase orders, shall constitute a waiver by Kodak of any of its rights under any inventions or patents of Kodak.

Computer Control hereby agrees that the entire right, title, and interest in and to all inventions, discoveries and improvements (whether or not patentable) conceived or first actually reduced to practice either (a) in the performance of the experimental, developmental or research work under this contract, or (b) in the performance of any experimental, developmental or research work relating to the subject matter of this contract which was done upon the understanding that a contract would be awarded, shall be the property of Kodak. Computer Control further agrees to disclose to Kodak as promptly as available all information known or possessed by Computer Control or its employees concerning such inventions, discoveries, and improvements, and upon request of Kodak and without further remuneration to Computer Control or its employees by Kodak, but at the expense of Kodak, Computer Control will procure execution by its employees of all applications for patents, assignments thereof and other instruments which are prepared and presented by Kodak and will require such employees to do all things which Kodak may deem necessary to vest and maintain in Kodak such entire right, title, and interest in and to all such inventions, discoveries and improvements.

Computer Control hereby grants to Kodak a nonexclusive license, with the right to grant sublicenses, under any of Computer Control's patented inventions used or embodied in the work performed under this purchase order at a royalty to be negotiated and not to exceed 3% of the net selling price, or 6% of the manufacturing cost, of that part of the apparatus employing or embodying the invention so patented and used.

Computer Control agrees to contract with its employ officers, who are to be connected with the work to be performed requiring such employees and officers (1) to assign to Computer Control or its nominees any such inventions, etc. herein above referred to, and (2) to execute and deliver patent applications and such inventions, and (3) to take all other action necessary or desirable to carry out, insofar as they are concerned, Computer Control's undertaking herein. The contract between Computer Control and its employees and officers shall be substantially in the form attached hereto and entitled "Special Employees Agreement."

Computer Control agrees to include in any subcontract hereunder of \$3,000 or more, in which payment is to be made for experimental, developmental or research work, a Patent Rights Clause which is no less favorable to Kodak and the Government than the Patent Rights Clause contained in this purchase order.

CONFIDENTIAL NATURE OF WORK

Computer Control agrees to use in performance of the services and work hereunder only trustworthy personnel who have agreed to assign all their inventions, discoveries and improvements to Computer Control, or its designee, and Computer Control agrees not to disclose, other than to Kodak's or Computer Control's employees or officers directly concerned with work under this purchase order, to any person, firm, or corporation any details or information concerning, or acquired in the course of or as background to, any design, engineering or development work to be performed or being performed for Kodak under this agreement, and Computer Control further agrees not to do for any person, firm or corporation other than Kodak, any design, engineering, or development work on particular subject or projects which involve or employ any details or information not to be disclosed to others as hereinbefore provided, such restrictions to continue in effect until notice in writing from Kodak or until such information is otherwise available to the public.

CONDITIONS ON REVERSE SIDE OF THIS PURCHASE ORDER (see form attached)

Conditions No. 1, No. 4, No. 5, and No. 7, appearing on the reverse side of this purchase order are hereby incorporated in and become a part of this order. Conditions No. 2 and No. 3 either do not apply or are covered in greater detail in the body of the order, itself. Condition No. 6 is waived with the understanding that Computer Control shall advise Kodak in reasonable detail if Computer Control has reason to believe that anything that may have been incorporated in the Computer Control design may involve infringement of any U. S. Patent.

(D) THE PROVISIONS OF THIS SECTION SHALL NOT LIMIT OR AFFECT THE RIGHT OF THE BUYER TO TERMINATE HIS ORDER FOR DEFAULT OF THE SELLER.

(E) SINCE THE BUYER'S CLAIM, IF ANY, MAY IN TURN BE REQUIRED TO BE PRESENTED WITHIN A SPECIFIED TIME AFTER TERMINATION, SELLER'S CLAIM HEREUNDER SHALL BE SUBMITTED PROMPTLY BUT IN NO EVENT LATER THAN 8 MONTHS FROM THE EFFECTIVE DATE OF TERMINATION OR SUCH EARLIER TIME AS BUYER MAY SPECIFY, UNLESS EXTENDED IN WRITING BY BUYER UPON REQUEST OF THE SELLER MADE IN WRITING WITHIN SUCH PERIOD. Dear [redacted]

We are enclosing our CPFF cost estimate for Minicard Selector No. 2 as you have requested. This estimate includes the new development work required to implement the Selector with standard logical packages. In our previous CPFF estimate, dated October 7, the development costs were assigned to Selector No. 3, but the resultant additional cost of Selector No. 3 over Selector No. 2 was reduced by economies expected in building two machines simultaneously. In other quotations submitted on August 26 and September 23 for Fixed Price and on October 26 for Time and Materials the development had been handled in several different manners.

As you suggested, we have used in this estimate the same EO and G & A rates which were applied to our subcontract with you for Minicard Selector No. 1. We understand that a new audit will be made to determine the exact rates to be used in the contract for Selector No. 2.

In the portion of the estimate for Direct Charges we have applied quantity discounts where applicable. For your reference we are also enclosing a copy of our price list for some of the equipment.

We will be glad to promptly supply any further information which you may require.

Very truly yours,

COMPUTER CONTROL COMPANY, INC. STATINTL
