Dear [Redacted]

On 3 March 1978 we received from Senator Richard Lugar's office a copy of your 14 January 1978 letter to him requesting information regarding certain experiments you believe may have been performed on your deceased father, [Redacted]

The recently discovered files of Project MKULTRA do contain evidence that research involving human testing was conducted in the fields of behavior control using techniques involving hypnosis, drugs, etc. Our records indicate such testing on unwitting subjects ceased in 1964. Unfortunately, Project MKULTRA files do not contain the names of persons who may have been used as test subjects. Therefore, in our search of relevant files, your father's name was not found.

Admiral Turner has assured the Congress that the CIA will attempt to identify those persons who were the subjects of unwitting testing conducted under Project MKULTRA. To this end, the institutions where Project MKULTRA testing took place have been notified of their involvement with the project. Admiral Turner has offered these institutions his full cooperation in helping them identify the persons who were test subjects. Please be assured I will inform you immediately if any institution notifies CIA that it has identified your father as having been a Project MKULTRA test subject. Since the Army conducted similar type experiments, we recommend that you also write to the Department of the Army, Office of the Surgeon General, Room 3E458, The Pentagon, Washington, D.C. 20310.

Sincerely,

SIGNED
