NOTE FOR: Deputy Director of Central Intelligence

SUBJECT: Your Lunch with Bill Colby

1. In connection with your lunch, with Bill Colby on Thursday, thought you might want to have on hand some of the material we have been using with the Senate Select Committee on Intelligence to convince them of the errors of their way and to redraft their Angola report. We have one more section to send down to the Committee which we hope to get there by mid-week. So far, we have gotten positive signs indicating that we had made a telling case in certain areas. Attached is that portion of our comments which most clearly relate to Bill, i. e., the misleading of Congress charge.

2. I also think the Committee experience with us on the Angola report has been good for them. When I was invited down for a sneak preview of their draft Shaba Province report, which is now undergoing major redrafting, one of the principal drafters said they had done this because they did not want to find themselves in the same position on this report as they had on the Angola report.
