25X1 6. [REDACTED] EMPLOYMENT REQUEST Received a call from Miss Paris, in the office of Representative James H. Quillen (R., Tenn.), requesting three clerical and three professional applications be sent to her attention. OLC Registry was advised.

25X1 7. [REDACTED] LIAISON Called Jon Holstine, on the staff of the Subcommittee on Asian and Pacific Affairs, House International Relations Committee, to report on an earlier inquiry about possible deployment of a Soviet air landing division on Sino-Soviet border. Mr. Holstine had indicated there was such a report in the "Defense Foreign Affairs Daily," dated 2 October 1978. I told Mr. Holstine that the opinion of our experts was that no such deployment had taken place.

25X1 8. [REDACTED] LIAISON Received a call from Mike Epstein, Senate Select Committee on Intelligence staff, who wanted to clarify newspaper accounts on the extent of the Committee's investigation of the death of John Paisley. Epstein indicated the only two areas the Committee was looking into were whether there are any counterintelligence ramifications and whether CIA did anything that was not routine in this investigation. He said he had tentatively concluded the answer was no on both points.

Regarding his request for briefings on DDO collection regarding human rights, I explained there was no central DDO focus on this problem and Epstein indicated the staff would be happy to hear about individual country examples instead of an overall picture. He suggested that they be briefed on three examples, one Soviet Bloc country; one Latin America country and another Third world country.
