2. The subcommittee staff expressed its strong interest in the work that OER has done on the issue of illegal migration. They were especially appreciative of the timeliness of our input since hearings are in progress in the House of Representatives and Senate on the illegal alien issue.

3. After the briefing, staff members informed us that hearings will be held this summer on illegal migration from the Central and South American countries. They expressed an interest in a subsequent briefing on this topic and stated that they would be in touch with us on this issue.
