Text.

4. (Internal Use Only - GMC) THIRD AGENCY Called Theodore Heavner, Bureau of Intelligence Research, State Department, to ask whether he could supply us with a copy of a CIA document found in State Department files during the Department's search for material relevant to a request for information by the Senate Foreign Relations Subcommittee on International Operations. I told Heavner that we had been unable to recover this document from our own files. We made arrangements for J. J. Hitchcock, of his staff, to drop the document off at Agency Headquarters the following day. I then asked Heavner whether there had been any new developments with regard to the plan of action agreed upon at the inter-agency meeting held on 25 August to discuss problems raised by certain other requests made by Committee Legal Counsel Michael Glennon. Heavner said that the Department had asked Glennon to formulate his latest oral request in writing but that Glennon had not yet done so.
5. (Internal Use Only - PLC) LIAISON Called Tim Ingram, Staff Director, House Government Operations Subcommittee on Government Information and Individual Rights, and confirmed a meeting for 10:00 a.m. Thursday, 31 August, in his office with [redacted] OGC, to discuss the Agency's scheduled testimony on CIA's relationships with the Department of Justice for the handling of criminal cases involving national security information. STAT
6. (Unclassified - MDC) LEGISLATION Spoke with Mr. John Kaul, FBI, regarding Civil Service Reform Act. Mr. Kaul had spoken with a member of Senator Patrick Leahy's (D., Vt.) staff and learned that the "Leahy Amendment" which expanded the reach of the Special Counsel was not intended to reach expected agencies e.g., CIA and FBI. I told Mr. Kaul that this office would join FBI in encouraging conferees to include such a statement in the conference report.
7. (Unclassified - RJK) LIAISON Called Allen Spence, Senate Select Committee on Intelligence staff, on [redacted] Deputy Legislative Counsel, instructions, and requested that the recent [redacted] report be returned to the Agency temporarily for sanitization. A courier picked it up later in the day upon which it was turned over to [redacted] OLC for a review and sanitization by [redacted]. STAT

8. (Unclassified - RJK) LIAISON Called Jason Cooke, House International Relations Subcommittee on Inter-American Affairs, to advise him that we were forwarding, per his request, two Agency classified publications to him. The first deals with illegal migration in the Caribbean and Latin America, and the second deals with arms sales in Latin America.
