Dear Chad:

Und sssooo! Perhaps that'll take care of the Forteans for a while. I'm glad that the members of the panel, with the possible exception of Thornton, were not handpicked by me - I really had no idea of the opinions of the others. Saw Gen. Samford for a moment in the P-gon on Monday, and he seemed not too unhappy.

Expect Fred's draft - better have him send it to me at

where I have facilities for taking care of such things. I should like him to send with it, for my retention, a copy of our Panel report.

Schedule: NSA group meeting on Thurs. 5 Feb. Could meet with rump Panel if needed on^{1st} afternoon of Fri 6 Feb, or Sat, 7 Feb (which would suit Sam Goudsmit and some of the others better). Let me know what you'd like.

Memo for Mary! Greetings and thanks to Peggy for the fine spread cum spirits she (and you, in a supporting role), put on.

STATINTL

Dear

Many thanks for the loan of this interesting article.
 I honestly believe that [redacted] author of that book on
 [redacted] a man whom
 I know and greatly respect, could do twice as much on the theory
 of many of the relevant phenomena as anyone else I could name.
 If this problem is as important as I think it is, I really be-
 lieve it would be inexcusable not to find some mechanism to
 secure a large fraction of [redacted] time and interest!
