(Journal of Physical Chemistry)

Zhurnal Fizicheskoy Khimii, Vol XIII, No 7-12, 1939.

STAT

JOURNAL OF INORGANIC CHEMISTRY

Vol XIII, No 7, 1936

"The Kinetics of the Synthesis of Ammonia on an  
Activated Ferric Catalyst"

L. Tunkin and V. Lyubov

Moscow

Physico-Chemical Institute Acad. S. Ya. Lavrov

Laboratory of Chemical Kinetics

Received 1 February 1936

"The Theory of 'Hot' Explosions"

Part I. "The Heat Explosion of a 'Zero' Order Reaction"

S. M. Telov

Leningrad

Institute of Chemical Physics

Received 15 December 1935

"The Problem of the Mechanism of Recombination of Hydroxyl  
in an Electric Discharge in Water Vapor"

V. Kondratyev

Leningrad

Institute of Chemical Physics

Laboratory of Elemental Processes

Received 7 February 1936

"The Induction Period for Crystallization of Supersaturated  
Solutions"

Ye. Pozner

Tashkent

Central-Asiatic State University

Laboratory of Inorganic Chemistry

Received 21 June 1936

"The Kinetics of the Processes of the Chemical  
Interaction of Gases with Cells"

V. A. Rortter and V. A. Radchenko

Academy of Sciences Ukrainian SSR

Institute of Physical Chemistry, Acad. L. M. Lisnitskii

Received 13 September 1959

"The Kinetics of the Dissolving of Solids in Acids in the  
Presence of Oxidizing Agents"

S. A. Plotnev and G. N. Gerasimov

Moscow Polygraphic Institute

Institute of Chemical and Cellulose Chemistry

Received 27 January 1959

"The Heterogeneous Catalysis of  $H_2O_2$  by Means of Compounds of  
Manganese"

O. V. Altshuler, M. A. Konevalova and K. S. Lashin

MDU

Laboratory of Kinetics and Catalysis

Received 2 November 1958

"The Super tensions (Polarization) of Hydrogen over  
Nickel"

P. Lohovtsov, S. Louisa and A. Frankin

Moscow Physico-Chemical Institute Acad. L. M. Karlov

Laboratory of Superficial Phenomena

Received 29 December 1958

"The Electromotive Curves of Concentrated Solutions of  
Acids"

Part I. "Derivation of the Adsorption Equation"

L. V. Frank and L. Ya. Kargin

Moscow

1959

Electrochemical Laboratory

Received 2 February 1960

"The Electrocapillary Curves of Concentrated Solutions of HCl"

Part II. "The Adsorption of Ions in Solutions of HCl, HNO<sub>3</sub> and H<sub>2</sub>SO<sub>4</sub>"

L. V. Frank, L. Ya. Kargin and L. Ya. Kargin

1959

Electrochemical Laboratory

Received 2 February 1960

"Analysis of Determining the Electrocapillary Curves of Solutions of Electrolytes"

L. Ya. Kargin and L. Ya. Kargin

Moscow

Physicochemical Institute Acad. Sci. USSR

Department of Supercritical Phenomena

Received 17 January 1960

"The Nernst Effect of Organic Compounds and Electrode Resistance"

L. V. Volkovskaya and L. Ya. Kargin

Moscow

Physicochemical Institute Acad. Sci. USSR

Nernst Effect Laboratory

Received 23 January 1960

SECRET

"The Effect of Collision on the Behavior of Complex  
Excited Ions"

B. G. Mezger

Leningrad  
State Optical Institute  
Laboratory of Photochemistry  
Received 1 July 1937

"The Use of a Biological Indicator for Studying the Radiation  
of X-rayed Book Cells"

N. V. Millipov

Leningrad  
VIM  
Department of Experimental Biology  
Academy of Sciences 1938

"Phase Relations in Mixtures of Succinic Acid with Hydrogen,  
Nitrogen, and Potassium"

N. S. Sharapov

Moscow  
Chemico-Technological Institute Acad. Sharapov  
Received 26 January 1939

"The Ternary Systems Benzene-Toluene-Methoxytolol and  
Benzene-Methoxytolol-Naphthalene"

V. M. Kravchenko

Smol'kov Experimental Station for Deep Breeding  
Received 21 December 1933

"The p-v-T Function and the Equation of State (ustoyaniya)  
for Unsaturated Vapors of Methyl Alcohol"

L. M. Lashakov

Moscow

RESTRICTED

Chemico-Technological Institute Insi Mendeleev

Received 18 October 1938

"The Electromotive Force of the Lead-Sulfur System and the Free Energy in the Formation of Lead Sulfide"

A. S. Kapustinik, and M. S. Oganishanova

Moscow

All-Union Geological Institute

Laboratory of Physical Chemistry

Received 27 October 1938

"The Heat of Mixture of Silica"

V. I. Belya

Moscow

Chemical Institute of the Far East Affiliate of the

Academy of Sciences USSR

Received 18 November 1938

"Measuring the Viscosity of the  $BaCO_3 - SiO_2$  System and Computing the Energy of Activation for Vitrified Systems"

A. Loshkova

Moscow

Institute of Geological Sciences

Academy of Sciences USSR

Petrographic Section

Received 17 October 1938

"On the Article by Sorin, V., 'The Process of Corrosion under Dripping'"

Ye. M. Zaretzkiy

"Answer to Zurebakiy on his Criticism of my Article, 'The  
Process of Sorption under Snipping'"

V. Zorin

Vol XIII, No. 1, 1933

"The Physical Limits of" Various Mixtures"

Part VI. "The Effect of Sorption Rate on the Retention  
Point of Heterogeneous Mixtures"

G. Kozlov

Leningrad

Institute of Chemical Physics

Received 23 February 1933

"The Kinetics of the Development of Crystals"

I. S. Kuznetsov

Leningrad

Industrial Institute

Laboratory of Chemical Physics

Received 31 December 1933

"Analyses of the Kinetics of CO and O<sub>2</sub>"

Part VI. "The Kinetic Oxidation of CO by O<sub>2</sub> in the  
of Spontaneous Combustion"

Ye. Kondratyeva and V. Kondratyev

Leningrad

Institute of Chemical Physics

Laboratory of Elementary Processes

Received 20 March 1933

RESTRICTED

"The Adsorption of a Dissociated Gas"

D. I. Lyudskanov

Leningrad

Academy of Sciences USSR

Electrochemical Laboratory

Received 11 January 1959

"The Electrochemistry of Platinum Sulfide"

Part IV. "The Change of Particles in Hydrogen-Platinum Sulfide"

A. V. Zilina and Nataliya Bakht

Moscow

Physico-Chemical Institute Acad. Sci. USSR

Laboratory of Electrochemical Processes

Received 10 February 1959

"The Ilkovic Electrode"

Part III. "The Effect of Poisoning on the Capacity of a Hydroxylated Electrode"

A. Shlegel, E. Korotkova and A. Korotki

Moscow

USSR

Electrochemical Laboratory

Received 2 February 1959

"The Overvoltage of Hydrogen in a Single Phase Electrolyte"

S. Baryshov, S. Rompol, and Ye. Jordan

Sverdlovsk

Uralist Physico-Technological Institute

Laboratory of Electrochemistry

Received 26 January 1959

RESTRICTED

"The Effect of Poisoning on the Capacity of a Smooth  
Platinum Electrode"

B. Ershler

Moscow

Physico-Chemical Institute Acad. L. V. Khar'kov  
Laboratory of Organometal Chemistry

Received 9 February 1956

"Super-polarization during the Electrolytic Isolation  
of Silver"

A. E. Kuznetsov

Leningrad

State Experimental Institute  
Laboratory of Scientific Electrochemistry

Received 7 January 1956

"The Overvoltage on Mercury in the Presence of  $\alpha$ -Surfactants  
Active Electrical Ions"

S. Ioffe, B. Rubanov, Ye. Kuchinskii, and N. Mityagin

Moscow

MSU and the Institute of Physical Chemistry Acad. L. Ya.

Khar'kov

Received 4 January 1956

"Electrocapillary Phenomena and <sup>Wetability</sup> ~~Wetability~~ (smachivayemost')"

Part IV. "The Influence of Reversible Adsorption of Sulfur-  
containing Organic Substances on the Wetting of Mercury  
by Solutions of Electrolytes"

Ye. Chernova and A. Gorodetskaya

Moscow

Leningrad

State Optical Institute  
Received 10 February 1939

"The Kinetics of Aerosols during Condensation of  
Supercooled Vapor"

I. V. Petrov and L. B. Dmitriyev  
Moscow

Physico-Chemical Institute named L. Ya. Karpov  
Laboratory of Aerosols  
Received 3 March 1939

"The Coagulation of Weakly (slabo) Charged Aerosols"

N. Timofeev  
Moscow

Physico-Chemical Institute named L. Ya. Karpov  
Laboratory of Aerosols  
Received 27 February 1939

"The Adsorption of Radium on Lead Sulfate"

V. G. Khlopov and V. I. Kuznetsova  
(From V. I. Kuznetsova's Candidate's Dissertation)

Leningrad  
Radium Institute  
Received 17 January 1939

RESTRICTED

"The Absorption Spectrum of Heavy Acetone in Hexane"

L. V. Lopyagin, N. A. Slonkovskaya

Eng. Lopatovsk

Academy of Sciences Ukrainian SSR

Institute of Physical Chemistry Lenin L. V. Skarshchivskiy

Received 1 February 1973

"The Adsorption of Cations on Platinized Coal in a Hydrogen Atmosphere"

G. Petrov, R. Dushkova, Gal T. Nizelava

Moscow

Physico-Chemical Institute Lenin L. Ye. Kuznetsov

Laboratory of Superficial Phenomena

Received 20 February 1973

"Surface Phenomena in Glass Polts (razlozhenie stekla)"

Part II. "A Method of Determining the Surface Tension of Glasses"

Del. S. Lev

Moscow

Institute of Mineral Materials

Received 7 September 1972

"The Physico-Chemical Properties of Solutions in Compressed Gases"

Part XXIII. "The Catalysis of the Reaction of Ammonolysis (ammonoliza) of Sartenin by Amides of Acids, Ibenic, and other Weak Acids"

G. S. Markova and A. I. Shatenshteyn

Moscow

RESTRICTED

RESTRICTED

Physico-chemical Institute named L. Ya. Mar'kov
