In 1951, [REDACTED] in Prague-Kbely, the airport received a mobile radio trailer (caravan), [REDACTED]. Since the trailer was new and had been made in Czechoslovakia, [REDACTED] it had Tesla equipment, and since the fighters and the old caravan had Fuga 16 equipment, it may be assumed that the equipment in the new caravan had to operate within the same frequency range. In March 1953, [REDACTED] saw a similar mobile radio trailer at Brno.
