## INTELLIGENCE REPORT

COUNTRY Yugoslavia

DATE: 25X1A6a

SUBJECT Coal Deposits in the Bosanski Novi Region

INFO.

DIST. 3 December 1946

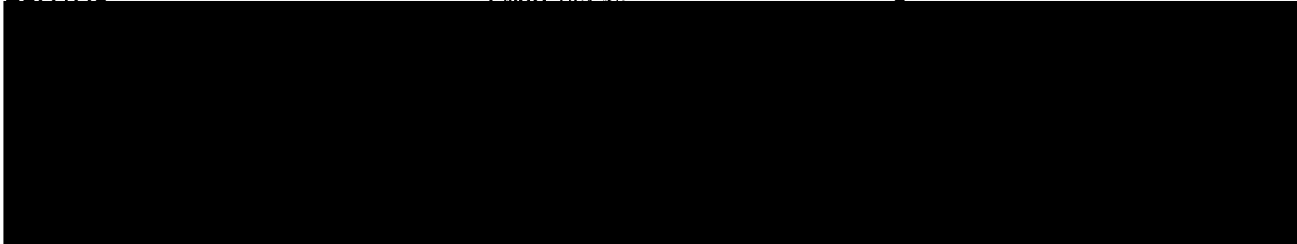

25X1A6a

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.  
Next Review Date: 2008

PAGES SUPPLEMENT

ORIGIN

25X1X6

1. A geological mission, headed by Dr. Sekulich and formed at Sarajevo at the instruction of the local Ministry of Industry and Mines, has returned to Belgrade after a four month tour of the region of Bosanski Novi.
2. The main task of this mission was to examine the coal deposits of the region. New coal deposits were discovered, and special attention is to be paid to the development of the coal shafts in the neighborhood of Ljesljani. These are at present under repair, the mines having been damaged during the war.
