SUPPLEMENT TO REPORT NO.

1. At the start of August 1948, recruiting for "voluntary" labor was begun in Istra for the construction of a new railroad which would link Lupoglav with Stalije in the Labinski mineral basin.
2. The sector Lupoglav-Vranje was under construction during December 1948, although a great scarcity of labor, specialists and modern equipment was felt. In order to meet this scarcity of labor, specialized courses are being conducted for selected workmen and technical people.
