INFORMATION REPORT

CD NO.

COUNTRY Yugoslavia

DATE DISTR. 4 APRIL 1949

SUBJECT Production at the Fiume Torpedo Factory in Yugoslavia

NO. OF PAGES 1^{25X1A2g}

PLACE ACQUIRED [REDACTED] 25X1A6a

NO. OF ENCLS. (LISTED BELOW)

DATE OF INFO 25X1X6

SUPPLEMENT TO REPORT NO.

1. The Fiume Torpedo Factory is working to increase its production and hasten its program for the reconstruction of machinery and tools.
2. The length of the torpedoes at present being produced is 3.65 meters. Externally they resemble Italian pre-war torpedoes, but they have a much larger charge of explosive. This (presumably the explosives) comes from the factory at Kamnik.
3. Last year's plan to adapt all machinery and tools to the production of Soviet-type torpedoes failed because of the lack of mechanics and experts.
4. Most of the torpedoes produced are transported by sea and stored in the naval yards in the Pola area.
