saw mill in Dobrzyn produces timber for the dams. The Opole shippard carries out overhaul and maintenance work on existing craft, but does not build new ones. The Opole Waterways Administration has control over two reservoirs

- 1) In Turawa, on the Mala Panew River, with a capacity of 98,500,000 cu.m.
- 2) In Odmuchow, on the Nysa Klodzka, with a capacity of 128,000,000 cu.m.
- e. Waterways Administration, Brzeg

This has a small shipyard in Grzeg, which carries out maintenance work on craft and looks after its own sector of the river.

f. Waterways Administration, roclay

In charge of the harbor at Popowice and the municipal and customs harbor in Uroclaw Port.

- g. Waterways Administration. Glogcy
- h. Waterways Administration. Krosno
- 1. Waterways Administration. Slubice
- 4. The entire length of the Canal from Kozie to Wroclaw has 26 locks. Length of the locks: 55 m.; width: 9.6 m. Locks for barge convoys are 187 m. long and 9.6 m. wide. Two locks in Bedzin near Wroclaw are 12 m. wide. The dams near the locks are constructed on the Poire system.
