a. From the information supplied by [REDACTED] on the COETBUS military post from mid-August to early September 1949 it is assumed that most of the COETBUS units of the 9th Heer Div (Cadre) were in their kasernes at that time. However, it cannot be determined if the reported troops in the COETBUS kasernes were primarily recruits, since some of the combat units were reported absent on maneuvers. For example, it is assumed

from previous information that component units of the 9th Hez Div (Cadre) were engaged in field exercises in the BRDOR-AMMERDORF training area and in the area south of WEISSWASSER.

b. Maj MOTOLOSKI was identified for the first time in the CORBUS Pankor Kaserne. The 1719th AAA Regt (Cadre) of the 9th Hez Div (Cadre) is assumed to also be stationed in this kaserne, according to previous reports.
