4. A refugee who had worked in AS (N 51/P 18) until late August 1949 reported that troop units from AS frequently conducted night exercises along the border towards the US Zone of Germany. The units were quartered in three barracks and a large inn, located on the road to CHEB (N 51/P 37).***

Comment:

* The observations confirm previous reports.

** The component units of the 26th Inf Bn in the ZELEZNA RULA area were probably identified correctly, since this battalion has been located in BARTSCHERSTEIN (east of ZELEZNA RULA) since late 1948.

*** No Czechoslovakian Army units have been observed in AS. The observed troops may have been SNB units.Ø
