4.	Great Britain did much to offend German feelings in
	the field of culture. The USA tries to superimpose its
	valueless way of life on German traditions. France's
	refined propaganda is intelligible only to educated Ger-
	mans. Thus Germany's psychic and cultural needs are
	not satisfied by the rest. On the other hand, it appeared
	that there are men in the Lastern Occupation Forces who
	have a heart for German cultural problems and this can
	hardly be said of the lestern Occupation Powers. There-
	fore there is an increasing tendency among young Germans
	to lean to the Last, and the Soviets will take advantage
	of this develorment, while the British continue to apply
	colonial methods, while the Americans commit many irreparable
	psychological blunders and the French satisfy only some
	intellectual connoi sseurs, Germany is inclined to turn
	to the Foot

5. It is for these reasons that an agreement will be reached between politicians in Jest and Last Germany and Germany's unification will eventually be achieved. This German-Soviet rapprochement will become a fact, even in the face of the Western Occupation Forces. Germany is marching straight ahead into the camp of the Eastern bloc.
