COUNTRY Austria/USSR  
 SUBJECT Amount of Crude Oil Pumped from Soviet Oil Administration Fields during June 1950  
 PLACE ACQUIRED [REDACTED]  
 DATE OF INFO. [REDACTED] 25X1X

DATE DISTR. 12 SEP 50  
 NO. OF PAGES 1  
 NO. OF ENCLS. (LISTED BELOW)  
 SUPPLEMENT TO REPORT NO. [REDACTED] 25X1A

**CONFIDENTIAL**

The following figures represent the daily average amount of crude oil pumped from various SNV oil fields during June 1950 and do not indicate actual well production. Production has decreased slightly, notably at Muehlberg, where the daily output has dropped about 30 tons owing to an increasing seepage of water and sand.

<u>SNV Field</u>	<u>Number of Tons of Crude Oil Delivered Daily</u>
Muehlberg	1,250
Matzen and Aderklaa (1)	1,800
DA I (2)	310
DA II	260
ITAG	135
Van Sickle Oil Co.	175
E.P.G.	165

25X1A

(1) [REDACTED] Comment: Aderklaa well No. 1 is still producing about 120 cubic meters of crude oil per day. Oil traces have been found at one of the two wells which are being drilled.

25X1A

(2) [REDACTED] Comment: Early in June 1950, a new well was brought in which now delivers 30 to 35 tons of oil per day. It is doubtful that this well will last.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
