1. Along the seawall of the Incheon Tidal Basin area (126-36-55, 37-27-30 to 126-37-55, 37-27-10) there are concealed machine gun positions. There are approximately 40 guns, placed in positions which would cover any landing attempts in this area; these guns can also cover the channel.
2. The guns are entrenched immediately behind the seawall and fire through openings made by removing stones in the wall. The gun positions are covered with planks and dirt. Access from the rear is through an open trench.

Comment. It is probable but not confirmed that there are also guns concealed along the northwest side of the basin area.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the President of the United States.
