[REDACTED]

1. The Tynec n. Sazavou of the Zbrojovka Brno National Enterprise is assigned to the Czechoslovakian Metal-working and Engineering Industry, National Enterprise. It is a subsidiary of the Zbrojovka Brno n.p. The factory designation is Plant 10, Tynec n. Sazavou of the Zbrojovka Brno n.p. It was formerly known as the Engineer P. Janacek Factory.
2. The operational manager is one Ledek, (fnu), and the commercial manager is one Oliverus, (fnu).
3. The employees total 1,020 men, including 120 officials. work is done in two shifts.
4. There are eight departments in the factory, including the machine repair department, where factory machines are repaired; the aluminum foundry, equipped with six smelting furnaces with a volumetric capacity of 0.5 cu.m., two conveyor belts, and five electric sand mixing machines; the electron metal foundry (elektroniessorei), with nine smelting furnaces with a volumetric capacity of 0.5 cu.m. and two conveyor belts; the steel foundry, with eight smelting furnaces with a volumetric capacity of 1 cu.m., and two conveyor belts; the plate-rolling mill, equipped with four furnaces, two conveyor belts, one hammer mill, and a large sand mixing machine; the forge, with three drop hammers with dropping weights of 50, 75 and 100 kg, two electric leaf spring hammers, three forge fires, and three friction presses; the tool shop; and the magnet workshops.
5. Most of the production consists of parts for Java 250 cu.cm. motorcycles. These parts, both rough and processed, are delivered to the Java Factory Janacek in Prague.
6. Raw materials come from either the Brno Central factory or from a branch plant in Prague.
