Between 18 and 23 October 1950, 40 recruits were seen undergoing basic infantry drill in the yard of the Delius Kaserne in Potsdam, while older soldiers cleaned and overhauled guns, motor vehicles, and other equipment. On 18 October, 21 officers, including six former sergeants who had just been promoted to the rank of junior lieutenant, left the installation with suitcases and boxes, riding trucks [redacted] toward Doberitz. The manner in which these officers said farewell gave source the impression that they were not going to return.

## [REDACTED] Comments.

- (1) The information on the Delius Kaserne concerns the 30th Gds Gun Arty Brig of the unidentified artillery division in Potsdam which is stationed there. Following the return of artillery units to the installation from the Altengrabow training area prior to 17 October 1950, additional artillery units returned to the billeting area on 19 October 1950. [REDACTED] Elements of the artillery division from Potsdam participated in fall maneuvers in the Magdeburg-Wittenberg area during the first half of October 1950. Present report indicates that recruits and officer replacements also arrived in the Delius Kaserne. The 21 officers who left the installation on 18 October 1950 possibly returned to the U.S.S.R. for demobilization. 25X1A
- (2) To date no Soviet troops have been observed in Schwedt on the Oder River. Further information is required to clarify whether or not a Soviet unit was activated there.
- (3) On 9 October 1950, the elements of the 10th Gds Tank Div from the Kavallerie Schule held field exercises in the Ketzin area. [REDACTED] Present report indicates that the units returned to the installation by 19 October 1950. 25X1A
- (4) General Loshkin (fnu) has been carried since 1947 as chief of the Gas and Oil Distribution Department of the GOFG on Pappelallee, Potsdam, and was last confirmed in this position on 24 February 1948.
- (5) According to another source, Camp Koenigswald in the engineer training area of the unidentified engineer regiment of the GOFG in Potsdam was torn down on 22 September 1950. [REDACTED] It is possible that the camp buildings have been reconstructed. 25X1A
