No troops were observed in the barracks installation in Gera-Tinz on 9 April. Only 12 windows were lighted in the billeting area that night.  The building at 12 Lindenstrasse seemed to be a Soviet troop quarters. Sentries in front of it were red-bordered black equalets with artillary insignis. A run crew of 10 non went into the building on 10 April. They were assigned to four heavy guns which were emplaced in the area between Collisorstrasse and Lindenstrasse apparently for treining purposes. The guns were of about 150-mm, had berrels about 3.5 meters long, a multi-baffled muzzle brake, a square protective shield, and disk wheels with solid rubber tires.  A troop train consisting of 1 coach and 8 bexears occupied by troops wearing red-bordered black equalets with artillery insignia, and an undetermined number of flatcars carrying 12 trucks and 8 guns, apparently 76.2-mm AT guns, was observed passing through Kraftsdorf. about 12 km from Gera, and heading toward Weimar on 7 April.    Soxi-   Comment. A train carrying troops with 14 heavy guns and 3 AT guns was observed leaving Altenburg toward Loipzig on 18 Earch 1951.    Comment. A train carrying troops with 14 heavy guns and 3 AT guns was observed leaving Altenburg toward Loipzig on 18 Earch 1951.    Comment.		-	DATEROL/US OFFICE 2				į
No troops were observed in the barracks installation in Gara-Tinz on 9 April. Only 12 windows were lighted in the billeting area that night.  The building at 12 Lindenstrasse seemed to le a Soviet troop quarters. Sontries in front of it were red-bordered black epaulets with artillary insignia. A pun crew of 10 mon went into the building on 10 April. They were assigned to four heavy guns which were emplaced in the area between Collisorstrasse and Lindenstrasse apparently for training purposes. The guns were of about 150-mm, had barrals about 3.5 meters long, a unlti-baffled muzzle brake, a square protective shield, and disk wheels with solid rubber tires.  A troop train consisting of 1 coach and 8 boxcars occupied by troops wearing red-bordered black epaulets with artillery insignia, and an undetermined number of flatcars carrying 12 trucks and 8 guns, apparently 76.2-mm AT guns, was observed passing through Kraftsdorf, about 12 km from Gera, and heading toward Weimar on 7 April.  Soxi-  Comment. A train carrying troops with h heavy guns and 3 AT guns was observed leaving Altenburg toward Leipzig on 18 Larch 1951.  Comment.  Comment.  Comments in Thuringia.  Of both armies which were observed in the Rathenow area in late liarch 1951 are believed to have also been connected in some way with the troop movements in Thuringia.  It is possible that elements of the two armies may have conducted a large-scale command post exercise in the western portion of the Soviet Zone of Germany was held in Thuringia.
