- In early March 1951, source learned from a Hungarian refugee that a 2-km rail link connecting the Cegled-Szolnok and Cegled-Kecskemet railroad lines was completed just east of Cegled in early January 1951. This link makes it possible for trains coming from the direction of Kecskemet to proceed directly to Szolnok without stopping at the Cegled railroad stations where they previously had to be reversed.*

25X1A

- * [REDACTED] The important Szolnok-Debrecen line and the Czeged-Belgrade and/or Temesvar (Rumania) railroad lines branch off at Cegled. The new rail link facilitates railroad operations by accelerating the bypassing of Cegled.
