1. Following is a report of traffic on the Transcaspian Railway through Dushak, Turkmen SSR, and of road traffic to and from Dushak for the period 14 May - 15 June 1951.
2. In this first report of what is expected to be a continuing series, source failed to give the number of cars of every train for the period 14 - 31 May. This was the result of a misunderstanding, which was corrected in the second half of the report. The omission of certain whole days or half days was the result of source's inability to make observations on those days because of inclement weather. The omissions can, therefore, be taken as an indication

Comment: It is noted that the number of rail cars is given in round tens for most items; irregular figures occur only for items numbering up to 21 cars. This suggests that when the number of cars given is 30, 40, 50, etc., the figures represent approximations rather than actual counts. Even some of the 20-car items may be approximations.
