CD NO.

COUNTRY Yugoslavia

DATE DISTR. 5 Sept. 1951

SUBJECT Highway and Railroad Bridges in Bosnia and Croatia

NO. OF PAGES 2

PLACE ACQUIRED 25X1C

REFERENCE COPY

NO. OF ENCLS. (LISTED BELOW)

DATE OF INFO. 25X1A

DO NOT CIRCULATE

SUPPLEMENT TO REPORT NO.

25X1X 1. Road/Railroad bridge at Slavonsk Brod: Approximate dimensions of this bridge are:

Length (excluding approaches) - 1,650 feet
Width (including 2'6" footpath) - 14 feet, 6 inches
Height above river - 35 feet

The bridge carries a normal and narrow-gauge railroad track over the Sava River and is closed to road traffic for the passing of trains. It is of Bailey-type construction with wooden roadway and is supported on timber trestles and an island in the center of the river.

2. Railroad bridge at Dobojski: This bridge, which is approximately 350 feet long, carries the narrow-gauge railroad to Sarajevo over the Bosna River. It has four steel bow-string spans, and is supported on three concrete pillars.

3. Road bridge at Dobojski: This is a reinforced concrete beam construction carrying the Dobojski-Banja Luka road over the Usora River. Approximate dimensions are:

Length - 300 feet
Width (exclusive of 3' feet wide pavements on each side) - 16 feet

The bridge is supported on three concrete pillars.

4. New bridge at Bihac: This bridge, which will replace the present temporary structures over two arms of the Una River, is completed and will apparently be opened to traffic shortly. It is of reinforced concrete construction. Approximate dimensions are:

Length - 400 feet
Width (excluding two 4' wide pavements) - 15 feet
Total width - 23 feet
Clearance - 12 feet

The bridge has reinforced concrete arches, three over the river and one carrying the approach on the west side of the river.

5. Road bridges at Slunj: These bridges carry traffic over the Korana River on the Bihac-Karlovac road. The main bridge has the following approximate dimensions:

Length - 240 feet
Width - 15 feet
Clearance - 60 feet

This bridge is supported on five masonry pillars. A second small Bailey-type bridge over an arm of the Korana River has the following approximate dimensions:

Length - 25 feet
Width - 12 feet
Clearance - 60 feet
