REPORT NO. [REDACTED]

CD NO. [REDACTED]

COUNTRY Yugoslavia

DATE DISTR. 6 Dec 1951

SUBJECT The Vuzenica Hydro-Electric Power Plant

NO. OF PAGES [REDACTED]

PLACE ACQUIRED 25X1A

CONFIDENTIAL COPY

NO. OF ENCLS. (LISTED BELOW)

DATE OF INFO.

SUPPLEMENT TO REPORT NO.

DO NOT CIRCULATE

25X1X

25X1A

1. The order for the construction of the dam for the hydro-electric power station being built at Vuzenica on the Drava River was placed on 16 June 1951, and payment will be made in dollars. The dam is to be constructed within the next twelve months by the firm of Wagner Biro, Austria. The work involves two lock openings on the right hand side. Concrete construction on the right bank of the river is almost completed.
2. The water capacity of the dam will be a discharge of 300 to 500 cubic meter per second (sic), and the height of the dam will be approximately 12 meters. The power station will have three Kaplan turbines of 20,000 KVA each. The turbines were manufactured by the engine works in Ljubljana under license from Heidenheim-Voigt of Wurtenburg, Germany.

Comment: The following attachments are available in CIA Library upon request:

1. Attachment A - Sketches showing the location of the power station.
2. Attachment B - A series of photographs of constructional drawings.
