Subject: Local Airfields at Dzhambul, Knyazhpogost,
and Vozhayel

25X1A

RETURN TO CIA
LIBRARY

DATE OF INFO. Prior to September 1948

1. The airfield at Dzhambul (4255N, 7123E), Kazakh SSR, is located 3 to 4 kilometers northwest of the city and 1 to 1.5 kilometers west of the railroad running from Dzhambul to Tashkent.

2. The airfield, about 1000 meters long and 500 meters wide, is enclosed by a wire fence. The field's surface is grass, and there are no runways. the field is being used by cadets from the air school in the town. about thirty planes of the Douglas and Kukuruznik types in use there.

3. The airfield at Knyazhpogost (6236N, 5050E), Komi ASSR, is located in a wooded area west of the town. The field has a sandy surface and one asphalt runway about 150 meters long and 4 meters wide. The field is used in all seasons of the year.

4. Planes of the Kukuruznik and Douglas types were seen at the Knyazhpogost airfield. Other planes there were used for detecting forest fires and for observing the flow of rivers.

5. The airfield at Vozhayel (6251N, 5121E), Komi ASSR, is located about 500 meters west of the town. It is egg-shaped, about 1.5-2 kilometers at its longest point and 1 kilometer at its widest. The surface of the field is sandy and there is no indication of a runway.

6. The Vozhayel airfield includes a two-story wooden headquarters building, two semi-underground stores for oil and gasoline, a hangar for plane repairs, and wireless equipment. The field is used in all seasons.
