DATE OF INFO. [REDACTED]

DO NOT CIRCULATE

SUPPLEMENT TO REPORT NO.

1. The R Bureau¹ of the new Ikarus aircraft plant² (Pjatiljetka - meaning Five-Year-Plan) of Trstenik and Rakovica plans the production of new reaction motors or jets whose construction must begin in the current year.
2. By American suggestion and in conjunction with this production, the manufacture of automatic sights is also being planned. This device is based on the radar system. An electronic computer sights and directs the aircraft machine-guns and cannon. The radar sight follows and aims at the enemy fighter plane, calculates its distance, relative speed, and direction, and registers automatically all those elements.
