SUPPLEMENT TO REPORT NO.

INFO.

- The 21 December factory, formerly known as the SET, employs 2,800 workers. It is located at 23 Popa Lazar Street in Bucharest.
- The General Manager of the plant is a certain Vaadescu.
- The factory manufactures the following:
 - Tractors: Each tractor is powered by an eight horse-power engine of Soviet manufacture. Fifty tractors are produced each week.
 - Cartridge boxes: The factory covers wooden cartridge boxes, 80 x 35 x 30 cm. with iron sheeting. Approximately 200 boxes are covered with sheeting each week.
 - c. Horse drawn ambulance carts: Each ambulance has a capacity for transporting two wounded men. Ambulances are for mountain use and have two 70 cm. wheels. The beds are located one above the other.
 - d. Military campaign kitchens: Each kitchen has three pots, one 45 liters capacity for tea, one 55 kilograms capacity for food and one 75 liters capacity for soup. Informant says that 280 such kitchens have been made monthly since March 1951.
 - e. Campaign bread ovens: There was received recently an order for 150 ovens, each having a capacity for 250 loaves of bread.
 - f. Agricultural equipment: Ploughas, harrows and sowing machines are also produced; no production figures are known.
- According to informant, the machinery used by the old SET factory for airplane production had been sent to a Brasov factory in 1947.
