- 2 -

- There is one large wooden building (para 4, No. 2 above) measuring about  $200 \times 50 \times 13$  meters. The details of the construction of this workshop follows in sketch C, which is attached.
  - 1 Motor Section. Cylinders and pistons are cleaned here. There are three mechanics.
  - 2 Drilling shop. There are twelve mechanics.
  - 3 Turning and Adjustment shop. There are four mechanics. 4 Fitters' shop. There are 24 mechanics.

  - 5 Blacksmith shop. There are three employees.
    6 Locksmith shop. There are four employees.
    7 Upholstering shop (?). There are two employees.
    8 Painters shop. There are six painters.

  - 8 Painters shop. There are six painters.
    9 Welding shop. There are three technicians.
  - 10 Personnel supervision and radio office. There are eight employees.
  - 11 Aircraft hangars.
  - 12 Storage containing paraffin in barrels.
  - 13 Storage containing gasoline in barrels. 14 Storage for oil in barrels.
- The personalities at the Zorleni airfield are as follows: 6.
  - Starsi-Lieutenant Vasile Braescu Director
  - Marinescu Chief Engineer
  - Mihai Arama Work Supervisor
  - Chirilo Tomescu Head of Personnel
  - Mariu Apostol Political Cadre
  - Master Sergeant Stefan Mocanu Security
