[redacted]

Preparations for the erection of a plant to produce streptomycin and vitamin C for Jenapharm in Jena (II 51/J 66) are nearing completion. The date for starting the construction of the biological department was set for 1 January 1952. The chemical departments of both the streptomycin and vitamin C plants are only scheduled to conduct research work. The actual production will be carried out by the biological departments. *

25X1 * [redacted] Comment. The Jenapharm plant is located in the southern plant of the Zeiss firm near the installations of the Schott plant. Information on the Jenapharm plant has been previously submitted. [redacted]
