[REDACTED]

The attachments [REDACTED] list planned deliveries of various types of liquid fuels and lubricants to DDR government offices and to the several Lander for January 1952 from VEB and SAG plants. The plans are drawn up by the State Secretariat for Material Supply and passed on to DKMZ which divides the total amount equally with Derunaph. The ministries on the following lists, but not the Lander, inform DKMZ and Derunaph where they want their quotas delivered. Fuel delivered to the Lander is used by land governments for hospitals, administration and private delivery to DKMZ and Derunaph gasoline stations. All amounts are given in metric tons.
