Between 5 and 27 March an inspection team of four North Korean senior colonels, six Chinese Communist officers, and two interpreters toured the area west of Suan (126-22, 38-24) (BT-7186), Kimsu'om (126-29, 38-09) (BT-8025), and Sin'gye (126-32, 38-30) (BT-8564). On 1 April members of units in this area received the following information and instructions from the inspection team:

- a. There is a possibility that the United Nations plan to land north of Kimpo Peninsula and cut off Kaesong from the North Korean main supply route. The Chinese Communist 65 Army has been ordered to prepare to move westward in preparation for a UN landing.
- b. The truce talks will be concluded in May, or if not in May, not later than the end of June.
- c. An order has been issued to North Korean and Chinese Communist infantry and auxiliary troops not to fire at United Nations planes for fear of disclosing their positions. Chinese Communist and North Korean anti-aircraft battalions are adequate to protect strategic points.
- d. Keep a constant alert for all types of boats on the southern coast of Hwanghae Province, and concentrate small boats along the northern coast of Kangwha Island.
