INFORMATION REPORT

REPORT NO. [REDACTED]

CD NO.

COUNTRY Hungary

DATE DISTR. 18 August 1952

SUBJECT New Hungarian-Soviet Communications Cable;  
New Power Station

NO. OF PAGES 1

DATE OF INFO.

Up to early May 1952

REFERENCE COPY

NO. OF ENCLS. (LISTED BELOW)

PLACE ACQUIRED [REDACTED]

NOT CIRCULATE

SUPPLEMENT TO REPORT NO.

25X1

[REDACTED]

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

[REDACTED]

1. New Cable.

- a. The Hungarian post office engineering department has laid a new underground cable connecting Budapest and Cop in the USSR. It follows the line Budapest - Cegléd - Szolnok - Debrecen - Nyiregyháza - Záhony - Cop and is intended to be used exclusively for Soviet-Hungarian military and political communications. It is isolated from the other cable lines within the country.
- b. It will have branch lines which are still under construction, running from Szolnok to Szeged and from Debrecen to Miskolc, the latter presumably being routed via Polgár across the Tisza River.
- c. The boosting stations are housed in bunkers. It is assumed that the Nyiregyháza post office is the most important one on the line as it has received 150 new sets of equipment. The "Hughes" communications system between Budapest and Moscow makes use of this cable.

2. Borsodi-Érőmű Power Station.

- a. A new electric power station, situated just south of Sajószentpéter village, 18 km. north of Miskolc, on the Sajó River, is under construction and is due for completion in 1954, at the end of the Five Year Plan.
- b. The plant is scheduled to use low-grade coal from the Sajószentpéter mines and will supply electric current to heavy industry at Miskolc, Diósgyőr and other plants within Borsod County. New works under construction at Kazincbarcika and Sajóabony will probably be supplied from this new power plant.
