

1 September 1978

NOTE FOR CHAIRMAN - Security Committee

STAT 1. I've received some great comments from State and our TSD on the excellent analysis recently published by OTS's lab [redacted]

STAT 2. A great deal of work went into that job. [redacted] [redacted] didn't do much to supply additional resources when he told his lab people to get on with it. They borrowed and contracted and in general cashed chips all around the Agency to get the job done. And it turned out fine. A copy is attached. STAT

3. A thank you note seems in order, and I recommend you sign the attached letter of commendation.
