9. In response to a question from Mr. Bow, the Director stated it is a fact that the Viet Cong utilize Cambodia territory for rest and rehabilitation and for regrouping.

10. Mr. Lipscomb expressed concern about the attacks on CIA and asked whether there were some internal problems involving the Agency. Mr. Helms indicated he did not believe so, that the [redacted] case was just one of those situations where a man caught in an error was striking back in an improper way. He pointed out that undoubtedly there will be further attacks and certainly the press is quite interested in printing anything involving the Agency. The Director stated that the Agency was not in a position to respond to these attacks. The members agreed this was appropriate. Mr. Helms then briefed a little more on the [redacted] case pointing out that a very senior board had been appointed to review the matter and report to him.
