25X1A

German Democratic Republic

25X1X MEASURES UNDERTAKEN TO IMPROVE SAFETY AND TO GUARANTEE PLAN FULFILLMENT AT THE ZWICKAU OELSnitz BLACK-COAL MINES (15 pp; German; dated July 1952; date of information: same; [redacted] document distributed on 7 January 1953) 25X1X

[redacted]

25X1X This document is [redacted] a typewritten report, dated 14 July 1952 and prepared by the Main Administration for Coal, State Secretariat for Coal and Power, which lists in detail all measures undertaken and to be undertaken by the State Secretariat for Coal and Power, the Main Administration for Coal, and the VVB (Administration of People-Owned Enterprises) Zwickau to improve safety of operations, increase cultural and social installations, and guarantee fulfillment of the production plan at the Zwickau-Oelsnitz black-coal mines. In addition to an outline of steps of an administrative nature, a list is given of all machinery, apparatuses, materials, and workers required to attain the above-stated objectives.

Attached to the above report are six enclosures, as follows:

- a) 2-page table giving a compilation of the funds required to procure machinery and equipment and to construct social and cultural installations.
- b) 1-page list of the 1952 priority requirements for power cable.
- c) 1-page table of the required firedamp-proof motors, switching apparatuses, cables, and circuits.
- d) 1-page table of the required telephone and signal installations.
- e) 1-page table giving statistics on the number of workers employed as of the end of June 1952 and on additional personnel requirements.
- f) 1-page table giving figures on the 1953 production plan on the basis of 301 working days.
