1. The Sao Paulo State Governor reports that work on roads will amount to about CR\$ one billion during 1953. The double lanes to Santos and Campinas will be finished by July 1954, and work is progressing on some 1,682 kilometers of roads in the Interior. An asphalt road is being built between Santos and Curityba along the seacoast, and will in two or three years open this banana and tea district by providing better transportation, which at present is supplied by only an antiquated narrow-gauge railroad.
2. In Para, a new highway, linking the two towns of Vigia and Sao Caetano de Odivelas, is rapidly being completed.
