MEMORANDUM FOR: Chief, Sovmat Staff
Chief, Contact Division
Chief, FBID ✓
Chief, FDD

5-11

SUBJECT : Progress Report

1. In connection with the CIA Progress Report to be prepared for the NSC and the President, we need a draft statement from your division outlining the need for, concept of, and role of the division in the collection system, together with a critical analysis of divisional progress (especially from October 1950 to October 1951) and problems (including the "requirements" problem). The statement should be brief; totaling not more than five single-spaced pages.

2. You should try to avoid the conventional government "gobbledygook" that produces such terms as "implement", "formalize," and "promulgated." We must state plainly what we have done, why and how we have done it, where we once were, where we are now, and what should be done in the future. It would be convenient for this office if additional pages of brief representative statistics were attached to your report for possible use in the final report.

3. This is urgent. Reports must be in this office by November at the latest. may coordinate with you on this in the interim.
