CIA Histories Completed and Pending

(Major works only; we are compiling a catalog of historical and quasi-historical papers, extant and planned, which will be quite extensive.)

Completed:

Darling history through Hillenkoetter administration, 10 volumes

Organizational history of overt components through Smith administration, 10 volumes

(These two, well indexed and annotated, are quite useful in answering questions about the Agency's formative years.)

Draft organizational histories of a dozen DDS and DDI offices 1953-56 and -60

(We have abandoned this routine coverage of the comparatively stable waterfront as yielding a dull product not likely to be useful to anyone.)

In Progress:

	Subject	Chief Authors	Estimated Completion
In Historical Staff:			
25X1A6a	The Kennedy Years from DCI viewpoint		1965
	Vietnam operations to Diem's fall		1965
			1965
	Index of historically significant CS documents		1966
	(1970 is a probably visionary target date for finishing with all old records, but in the meantime CS records that come up for destruction are being searched for items of historical value and these preserved and indexed.)		1970 plus
			25X1A9a
