11 March 1963

MEMORANDUM FOR: Executive Staff, OS

25X1A

ATTENTION :

25X1A

SUBJECT : Proposed [REDACTED] (Revision of [REDACTED])  
Code Designations

25X1A

1. Reference is made to the proposed [REDACTED] forwarded for comments by your Routing and Record Sheet on 4 March 1963.

25X1A

2. We should object to the proposal to issue this under the [REDACTED] series. The action called for is to be taken by the Chief, Records Integration Division, the Deputy Directors and the Operating Officials. No action is indicated by the Office of Security. Too, the classification of SECRET was not given by the Office of Security.

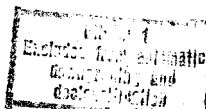

25X1A

3. With reference to paragraph 51 e, we wish to point out the following:

a. As will be seen from Attachment A, at the request of the FE Division the Office of Security concurred in a waiver to existing regulations so as to allow the storage of certain code designations and true names in a Secure Area within the Headquarters Building providing certain conditions were met. It is not recommended that provisions for such an exception be included in the proposed regulation as this would probably result in a great number of unnecessary requests to be forwarded to us.

b. The first sentence of this subparagraph e relates to the classification of SECRET being given to records of code designations and true identities. The guides which were

**SECRET**

SECRET

recently issued by the FE Division are not in conflict with this as (in paragraph A-8) it is indicated that correspondence may be CONFIDENTIAL which assigns a cryptonym. Thus a dispatch assigning the cryptonym of XYZ to project 1234 could be classified CONFIDENTIAL but the records giving the true name or descriptions of projects and identities would be classified SECRET.

MEMORANDUM FOR: Assistant Deputy Director of Security (PPS)

SUBJECT : Proposed [REDACTED] Code Designations

25X1A

1. It is recommended that paragraph (e) of the proposed regulation be concurred in as written.

2. By memorandum to DD/P dated 15 February 1963, OS concurred in FE Division's request for a waiver of existing regulations to permit the filing of code designations and true names on the same card in a Secure Area within the Headquarters Building. However, OS concurrence was predicated upon the following:

a. Storage must be in an approved vault area or secure area within the Headquarters Building.

b. The particular storage area must be designated a restricted area with access to authorized personnel only.

c. Sensitive identities (agent-type personnel) and code designations must continue to be filed separately.

3. Since the proposed regulation is applicable to Agency components, both within and outside the Headquarters Building, it is believed that the restriction against filing true names and code designations in the same safe should be continued. However, as you point out, there are safeguards provided in the Headquarters Building which will enable us to concur in requested waivers where vaults or Secure Areas are available for storage of these records.

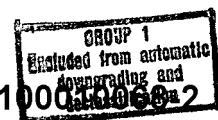

[REDACTED] 25X1A

Chief, Physical Security Division, OS
