MEMORANDUM FOR: Deputy Director of Security (P&M)
ATTENTION : Chief, Policy and Plans Group
SUBJECT : Protection of Agency Intelligence
Sources and Methods
REFERENCE : Form 610 to DD/PTOS from DD/P&M,
dtd 18 Feb. 75, same subject

1. The PTOS Directorate, with its focus on physical and technical security, has a composite security methodology which must be considered, for purposes of reference exercise, an intelligence methodology requiring protection. In essence, the real concern lies, of course, not in identifying the component parts (left column below) of the composite methodology, but rather with the specifics of these component parts, i.e., the modus operandi, equipment specifications, specific techniques, etc. (right column below).

2. It is suggested the total PTOS methodology be dissected as follows with the items in the right column considered appropriate candidates for method protection tactics:
