Approved For Release 2000/05/31 : CIA-RDP83B00823R000200120010-9

EAB has studied this as thoroughly as possible in the few hours allotted. I believe that the Office of Security should go on record as being opposed to CIA sponsorship of the proposed organization. It would present a vulnerable target for the opposition, our Congressional detractors, the news media, disgruntled former employees, and DL'd applicants-- plus creating a source of continuing problems for administrative and security monitoring. The benefits do not justify the risks.
