13. #5 should be combined. The original intent was to reflect a continuing review of ongoing contracts but also a security inspection of a new contractor prior to operation. If you agree, a possible rewrite is:	
14. "Conduct surveys or physical and technical inspection, resulting in security determinations, on contractor areas and/or equipment noting that will hold and process information supplied by this Agency."	

Under Objective B57104 the Office of Security will review and validate all Office of Security functions, activities ...to ensure effectiveness, economy and efficiency. The attached documents represent two milestones under that objective. Milestone 1, the components identified their functions and activities. Milestone 2 was establishment of a format for evaluating these...activities. It is requested that ~~Special Security Group~~ *Information System Dept* review the attachment and:

- a) Certify that there are no deletions/corrections/additions to be made to the previous listing submitted by your office.
- b) Review the Identification of Activity statement on each evaluation sheet to ensure it fully equals to the comparable activity from your offices listing.
- c) Use the attached format to evaluate each individual activity.
