

OLC #81-0671/6

9 April 1981

MEMORANDUM FOR THE RECORD

FROM

25X1

Associate Legislative Counsel, ICS

SUBJECT

Responses To HAC Questions For The Record - FY 81 Supplemental

1. HAC Defense Subcommittee staff, pressed to prepare for markup on the FY 81 Defense Supplemental, asked for and received extraordinary service in the handling of the transcript and answers to questions for the record from the 8 April hearing.

2. Director, Intelligence Community Staff and Director, Program and Budget Office, ICS, testified before the subcommittee from 1330 till 1500 on Wednesday, 8 April. As markup was scheduled to begin at 1000 the next morning, staff asked that the transcript and the answers to questions for the record be provided before that time.

3. Office of Security escorts stayed with transcribers from the House Reporting Office while the reporter's notes were typed up; the completed transcript was delivered to the Security Duty Office late in the evening of the 8th. Responsibility for answering the approximately 80 questions was apportioned between CIA's Office of Comptroller and the Program & Budget Office in ICS. A package incorporating all answers but one was delivered to HAC staff at 0915 on the 9th. (The unanswered question, which required DOD input) is being sent this afternoon.)

4. We have been advised informally that the Defense Subcommittee adjourned after less than an hour's meeting, postponing the markup until Monday, 27 April. Full Committee mark is scheduled for the 30th of April.
