MEMORANDUM: Director of Central Intelligence  
Deputy Director of Central Intelligence

VIA: Deputy Director for Intelligence

FROM:   
Director of Soviet Analysis

25X1

SUBJECT: Possible Soviet Responses to a Liberalized US  
Policy on Grain Sales

1. Action. None - for your information only.

25X1

2. Background. In view of recent US policy discussions about sales of grain to the USSR, SOVA and OGI analysts have taken a new look at Soviet import needs. This memorandum examines the benefits that the Soviets might derive from the offer of large amounts of American grain on liberal terms and the limits to the leverage that such an option might provide the United States.
