

82-126641

THE DIRECTOR OF  
CENTRAL INTELLIGENCE

National Intelligence Council

27 October 1982

NOTE FOR: Director of Central Intelligence

I have begun developing a small group of outside experts who could be our outside eyes and ears for economic warning. They would be under contract, not just ad hoc consultants. I will be talking with some possible candidates in New York during the next two days and would appreciate your suggestions and Leo Cherne's.
