MEMORANDUM FOR: The Honorable George P. Shultz
The Secretary of State

SUBJECT : International Energy Reports

Earlier this month you asked the Agency to examine several energy-related issues. The attached reports address the three issues you raised, including the oil and gas market outlook over the next several years, the impact of a cutoff in Middle East oil supplies, and what the United States could do to help increase Third World energy supplies. I have also included a recent report we published on newly emerging Third World oil producers.
