Dear [Redacted]

Plans for the Future Space Missions Colloquium have been progressing steadily since your meeting with the Sponsors on 12 March. At the suggestion of Admiral Inman and Dr. Keyworth, the number of speakers has been significantly reduced to allow more time for each. Now each has been asked to talk for about one hour with one and a half hours allowed for discussion at the end of each of the three sessions. Your talk is scheduled for 4 June.

Norman Augustine, George Low, and Bud Wheelon have all agreed to serve as moderators of the military, civil, and other uses sessions respectively. Eberhardt Rechtin has agreed to serve on a panel with Bud Wheelon and George Low to formulate the findings of the Colloquium. Admiral Inman will moderate this panel and he has agreed to give the keynote address.

As indicated on the preliminary agenda which is enclosed, in addition to yourself, Robert Cooper, Lt.Gen. Richard Henry, USAF, Robert Buchheim, and Hans Mark have all agreed to present papers. [Redacted] Burton Edelson and Noel Minners

[Redacted] will also be invited to speak. Senator Harrison Schmitt has been asked to speak after the dinner for Colloquium participants on the evening of 3 June.

STAT

I have enclosed a list of possible participants and a copy of the invitation that will be sent to each. Any further suggestions you have would be most welcome. I look forward to your talk on New Concepts for and Dependence on Future Space Based Intelligence Systems. We hope you will participate in as much of the rest of the Colloquium as possible, including the dinner of the evening of 3 June.

Sincerely,

[Redacted Signature]

Project Director  
Future Space Missions Colloquium
